SKILLS

Programming Languages: OOPS,C#, Python, JavaScript, TypeScript

Web Technologies: HTML, CSS, Bootstrap, jQuery , Angular , Django

Frameworks & Technologies:.NET Core 8, .NET Framework 4.8, ASP.NET MVC, Web API Core, ASP.NET Web API 2, Entity Framework Core, LINQ, ADO.NET

Databases: SQL Server

Tools & IDEs: Visual Studio, Visual Studio Code, Git, GitHub, Postman, Swagger UI

Standard Guidelines : SOLID Principles, Design Patterns

Tools & Platforms: Visual Studio, VS Code, Postman ,SwaggerUI

Testing & Logging: xUnit, Moq, Log4Net, Serilog, AutoMapper

CI/CD & Deployment : IIS, Jenkins, SonarQube, Nexus

Willingness to learn

Time management capabilities

Concepts & Methodologies: SOLID Principles, Design Patterns, Agile Methodology

PROJECTS

Buslify | Web-based Bus Booking System

Role: Developer

Technologies: HTML, CSS, JavaScript, .NET Core, Web API, SQL Server, LINQ, Entity Framework, Bootstrap, Log4Net, AutoMapper

- Developed a comprehensive **Bus Booking System** aimed at simplifying the process of booking bus tickets for passengers.
- The system offers an intuitive **web-based platform** that enables users to **search for bus routes, compare prices, and book seats online** in real-time.
- Integrated advanced features like **e-ticket generation, seat selection, and payment processing**, providing a seamless and efficient booking experience.
- This solution not only caters to the convenience of passengers but also assists bus operators in **managing bookings, schedules, and customer data** effectively.
- Designed with a focus on **user experience, security, and scalability** to accommodate an increasing number of users and transactions.
- The system significantly enhanced **operational efficiency** for bus operators and improved **customer satisfaction** by offering a hassle-free booking process, leading to an increase in **online bookings** and **revenue growth** for bus service providers..
